PROFESSIONAL SUMMARY

Java Backend Developer with a strong foundation in Data Structures, Operating Systems, and System Programming. Experienced in designing and building scalable RESTful APIs and microservices using Spring Boot, with hands-on exposure to Linux System-level Programming. Proficient in Maven, Git, and Docker, with working knowledge of AWS and common design patterns. Skilled at debugging and writing clean, maintainable code, and focused on building secure, high-performance backend systems.

TECHNICAL SKILLS

Languages: Java, C, C++

Backend: Spring Boot, Spring MVC, Hibernate (JPA), RESTful APIs, Apache Kafka, Swagger (OpenAPI), Microservices

Java Concepts: Core Java, OOP, Collections, Exception Handling, Multithreading, Java 8 Features, Stream API

Databases: MySQL, MongoDB, Oracle SQL

Systems & Tools: Linux (Ubuntu/CentOS), Git, IntelliJ, VS Code, Apache Tomcat

Cloud & Containerization: AWS Fundamentals, Docker, Containerization Concepts

Software Engineering: Software Design Patterns, Debugging, Code Quality, Unit Testing Concepts

Core Concepts: Data Structures & Algorithms, OOP, OS Internals, System Programming, Computer Networks

PROJECT EXPERIENCE

GTL Software Pvt Ltd, Pune | Software Development Intern

Jan 2026 – Jun 2026

InteriorHub – Online Interior Design Website System | Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript

- Developed an interior design web application for browsing interior designs and managing customer, vendor, and admin interactions.
- Implemented backend functionality using Spring Boot, Hibernate, and MySQL, with frontend components using HTML, CSS, and JavaScript.

PERSONAL PROJECTS

Digital Banking Portal | Java, Spring Boot, REST APIs, MySQL, Spring Security, JWT

- Developed a secure backend application for customer, beneficiary, and transaction management using Spring Boot and RESTful APIs.
- Implemented JWT-based authentication and authorization using Spring Security, with MySQL for persistent data management.
- Implemented secure fund transfers and beneficiary management.

Java Study Tracker | Core Java, Collections, File Handling, Date & Time API

- Developed a console-based application to record and manage daily study activities using Java Collections and Object-Oriented Programming.
- Implemented date-wise and subject-wise study summaries and CSV export using Java File Handling and Exception Handling.

Generalised Data Structures Library | C++

- Developed reusable implementations of linear and non-linear data structures using C++ templates.
- Implemented generic data structures to improve code reusability and demonstrate understanding of fundamental data structure concepts.

EDUCATION

Master of Computer Applications (MCA)

Savitribai Phule Pune University | 2026 | CGPA: 7.88

Bachelor of Computer Applications (BCA)

Savitribai Phule Pune University | 2024 | CGPA: 6.86

HSC – Maharashtra Board | 2021 | 72%

SSC – Maharashtra Board | 2019 | 68%

STRENGTHS

- ✓ Strong problem-solving and analytical ability
- ✓ Active GitHub contributor with industry-level projects
- ✓ Quick learner with adaptability to new technologies
- ✓ Good understanding of backend architecture and system-level programming
